Computer & Networking IT-Solutions You can Trust and Depend on.

Our Mission is to restore your equipment back to factory service specifications, so that it will do what it was intended for! We have worked with many operating systems. We can then customize your setting as necessary, We

have 27+ years of experience, field experience and currently active as a microcomputer specialist, networking hardware & Software technicians. Simply, we can diagnose, build & repair, upgrade computer systems, setup networks so that network devices can be shared. Inform customers of most cost effective solution to their particular situation. We also setup customer's Internet Service hardware, software & other networking devices for, DSL, cable-broadband-high-speed. We perform onsite service, Some problems require a system to go with us.

Most system repairs are completed with 24-48 hours unless parts ordered. Onsite repairs usually the same day
